

# Technical requirements specific to molecular-genetic tests (Part 2)

**KOGUCHI Masako**

Japan Analytical Instruments Manufacturer's Association  
Sysmex Corporation

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

## Index

- 1 Information management
- 2 Documentation of examination procedures
- 3 General personnel requirements
- 4 Performance monitoring
- 5 External quality assessment and alternative method
- 6 Post-examination

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

# 1 Information management

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

## What is INFORMATION ?

### Information includes

- patient information
- examination data
- quality control data
- management information
- procedures
- records

### Information type

- computerized information
- non-computerized information
- undocumented information

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

## Confidentiality and Security

ATLAS Project  
ISO 15189 Accreditation  
Support Course

Laboratories shall have policies and procedures to:

- inform authorities and specify responsibilities for information management
- safeguard the patient's privacy
- ensure the confidentiality of laboratory data

### Paper-based systems

- use durable materials for recording
- store information properly

### Computerized systems

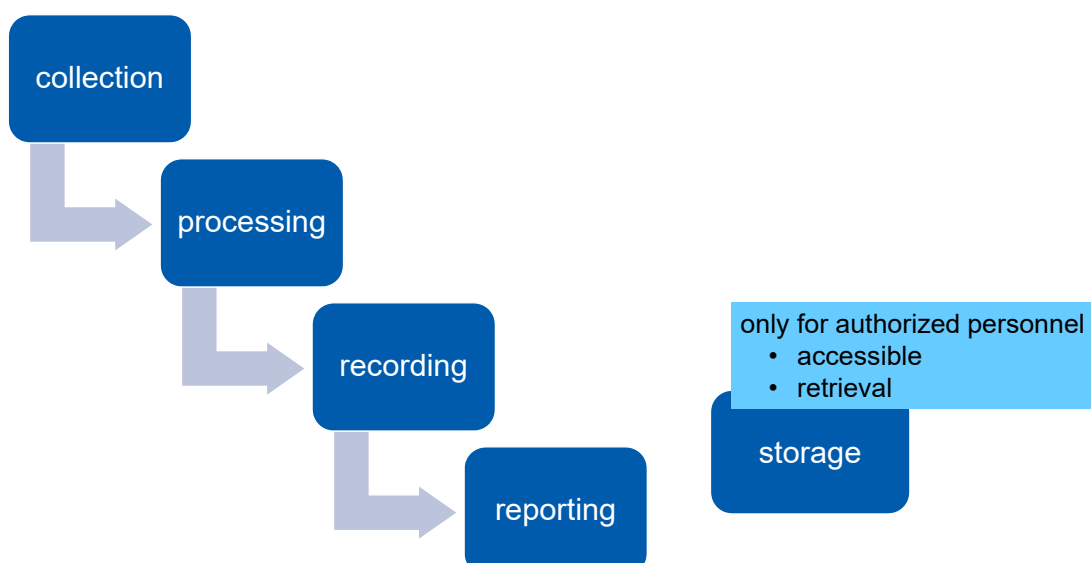

- schedule regular backups of data

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

## Information Control Process

ATLAS Project  
ISO 15189 Accreditation  
Support Course

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

## Computerized Systems

ATLAS Project  
ISO 15189 Accreditation  
Support Course

### Software options

- systems developed in-house using commercial database software
- fully developed commercial systems

### Computer system selection

- permanence, computer system maintenance, backups
- security, access confidentiality
- traceability
- system speed
- flexibility

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

## Computerized System Validation/Verification

ATLAS Project  
ISO 15189 Accreditation  
Support Course

Software and hardware shall be

- validated by the supplier and/or laboratory
- verified to confirm its function before implementation, with any change to the software
- retained validation and/or verification authorized records
- equipped with an interface

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

## Computerized System Management

ATLAS Project  
ISO 15189 Accreditation  
Support Course

Secured information within the computer system shall be

- protected from unauthorized access
- protected using cybersecurity measures
- protected against tampering or loss
- maintained in a manner that ensures the integrity of the data
- documented a contingency plan

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

## Interfaces and Off-Site Storage

ATLAS Project  
ISO 15189 Accreditation  
Support Course

Laboratories shall

- follow national or international data protection requirements
- ensure the integrity of information transferred through interfaces
- ensure that the off-site storage system complies with all requirements

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

## Information Management: Molecular Pathology

**ATLAS Project**  
ISO 15189 Accreditation  
Support Course

### Referral examination

### Next-generation sequencing (NGS) data transfer

- policy and procedure
- robust security

### Genetic testing

- onset
- non-onset carrier diagnosis, presymptomatic diagnosis, prenatal diagnosis

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

**ATLAS Project**  
ISO 15189 Accreditation  
Support Course

## 2 Documentation of examination procedures

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

## General Requirements for Document Control

ATLAS Project

ISO 15189 Accreditation  
Support Course

- authorized personnel shall review and approve all documents before issue
- all documents shall be identified uniquely
  - title
  - identifier on every page
  - version and/or date of current edition
  - page number/total number of pages
  - authorized person for issue
- documents shall be legible and in a commonly understood language
- the current edition and distribution of the documents shall be listed
- contingencies shall be in place to track the changes in the revised document
- all documents shall be periodically reviewed by authorized personnel
- all obsolete documents shall be identified as such, and at least one obsolete document shall be retained for a specific time
- quick references shall be acceptable when a full documented procedure is provided

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

## Examination Procedure Documentation

ATLAS Project

ISO 15189 Accreditation  
Support Course

Documents pertaining to examination procedures shall include the following, when applicable:

- |   |   |
|---|---|
| 1. purpose of the examination   | 13. principle of procedure for calculating results including, where relevant, the measurement uncertainty of measured quantity values |
| 2. principle and method of the procedure used for examinations                          | 14. biological reference intervals or clinical decision values  |
| 3. performance characteristics  | 15. reportable interval of examination results  |
| 4. type of sample (e.g. plasma, serum, urine, tissue)                                   | 16. instructions for determining quantitative results when a result is not within the measurement interval                            |
| 5. patient preparation  | 17. alert/critical values, where appropriate  |
| 6. type of container and additives  | 18. laboratory clinical interpretation  |
| 7. required equipment and reagents  | 19. potential sources of variation  |
| 8. environmental and safety controls  | 20. references  |
| 9. calibration procedures (metrological traceability)                                   |   |
| 10. procedural steps  |   |
| 11. quality control procedures  |   |
| 12. interferences (e.g. lipaemia, haemolysis, bilirubinemia, drugs) and cross reactions |   |

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

## Examination Procedure for Molecular Testing; NGS

ATLAS Project  
ISO 15189 Accreditation  
Support Course

### Upgrade monitoring

- instruments, sequencing chemistries, and reagents or kits used to generate NGS data

### Benchtop NGS procedures

- DNA/RNA preparation for different types of samples, fragmentation, library preparation, barcoding (molecular indexing), sample pooling, and sequence generation

### NGS bioinformatic pipeline

- all algorithms, software, and databases (referred to as components) used in the analysis, interpretation, and reporting of NGS results

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

ATLAS Project  
ISO 15189 Accreditation  
Support Course

## 3 General personnel requirements

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

## Personnel Requirements

ATLAS Project  
ISO 15189 Accreditation  
Support Course

1. Qualification
2. Job descriptions
3. Orientation for new staff
4. Training
5. Continuing education
6. Competence evaluation
7. Staff performance review
8. Record

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

## Qualifications and Job Descriptions (Points 1 and 2)

ATLAS Project  
ISO 15189 Accreditation  
Support Course

### Personnel qualification for each position

such as Laboratory Director, Technical Supervisor, Clinical Consultant, General Supervisor, Manager, and Technical Personnel

### Job descriptions for all personnel

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

### 3. Orientation of New Staff

**ATLAS Project**  
ISO 15189 Accreditation  
Support Course

**Orientation contents** include but are not to be limited to

- organization
- work area's department
- employment terms and conditions
- facilities
- safety requirements
- occupational health services

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

### 4. Training and Continuing Education

**ATLAS Project**  
ISO 15189 Accreditation  
Support Course

#### **Essential training**

- management system
- processes and procedures assigned as tasks
- information control with confidentiality
- health and safety, including infection control, occupational health, and adverse incident and accident
- ethics

Supervision of undertrained personnel

#### **Continuing education**

periodic review of the effectiveness of training and the continuing education program

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

## Competence Evaluation and Staff Performance Review (Points 5 and 6)

ATLAS Project  
ISO 15189 Accreditation  
Support Course

### Competence evaluation

- after training
- periodically
- managerial and technical tasks
- re-training, when needed

### Staff performance review

- performance review after technical competence evaluation
- consideration of individual needs
- encouragement of productive work environments

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

## 7. Records

ATLAS Project  
ISO 15189 Accreditation  
Support Course

Personnel records shall be maintained on at least the following:

- educational and professional qualifications
- copy of certification or license to practice, when applicable
- previous work experience e.g., CV
- job descriptions
- orientation of new staff to the laboratory environment
- training in the current job tasks
- competency evaluation
- records of continuing education
- reviews of staff performance
- reports of accidents and exposure to occupational hazards
- immunization status, as relevant to the assigned duties

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

## 4 Performance monitoring

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

### General

- ensure the quality of examinations
- appropriate pre- through post-examination processes
- internal quality control programs
- external quality control programs (see section 5)
- comparability of examination results

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

## Internal Quality Control Program; General-1

ATLAS Project  
ISO 15189 Accreditation  
Support Course

### Quality control rule

- define the frequency of processing
- define the acceptable criteria
- revisions to the acceptance criteria

### Quality control material

- react in a manner similar to patient samples

### Non-control material

- moving average
- alternate procedure validated to ensure its metrological traceability
- retesting of patient samples
- use of reference materials

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

## Internal Quality Control Program; General-2

ATLAS Project  
ISO 15189 Accreditation  
Support Course

### Quality control data

- evaluation and monitoring before releasing patient results
  - take corrective actions
  - review the results after the last successful quality control event
- monitor and review quality data periodically to detect trends
  - take preventive actions

### Comparability of examination results

different procedures, equipment or methods

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

## Internal Quality Control Program; NGS-1

**ATLAS Project**  
ISO 15189 Accreditation  
Support Course

### Wet Bench processes

- depth of coverage
- uniformity of coverage
- GC bias
- transition/transversion ratio (Ti/Tv ratio)
- base call quality scores
- mapping quality
- duplicate read success rate and removal of duplicate reads
- first-base read success
- decline in signal intensity
- strand bias

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

## Internal Quality Control Program; NGS-2

**ATLAS Project**  
ISO 15189 Accreditation  
Support Course

### Bioinformatics pipelines

- deviation during analysis
- regular monitoring with proper quality control materials
- establishment of quality control metrics for NGS process components; DNA extraction, library preparation, DNA sequencing, and informatics analysis pipelines

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

## Internal Quality Control Program; Amplification

**ATLAS Project**  
ISO 15189 Accreditation  
Support Course

### Nucleic acid amplification test

- monitor for cross-contamination
  - negative control
- to ensure the nucleic acid amplification reaction; for example, by using an internal control
  - internal control
- for qualitative tests, use negative and positive controls
- for quantitative tests, use a negative control and at least two positive controls

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

**ATLAS Project**  
ISO 15189 Accreditation  
Support Course

## 5 External quality assessment and alternative method

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

## Participation

**ATLAS Project**  
ISO 15189 Accreditation  
Support Course

### Responsibilities

- establish a process for EQA participation
- EQA program selection
  - fulfil ISO/IEC 17043
- instructions for participation
- definition of acceptable criteria
- corrective action taken when necessary

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

## Rule of EQA

**ATLAS Project**  
ISO 15189 Accreditation  
Support Course

### Laboratories shall

- handle the EQA samples
- analyze the EQA samples and subject the EQA samples to treatments similar to those used for patient samples
- monitor and maintain records
- investigate deficiencies
- manage corrective actions
- communicate outcomes

### Laboratories shall NOT

- hold discussions between laboratories
- refer to the samples for confirmation

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

## Alternative Method

ATLAS Project  
ISO 15189 Accreditation  
Support Course

**Develop other approaches** when EQA participations are not available

- policies and procedures
- records
- corrective/preventive action

**Examples of alternative methods** for molecular testing

- parallel sample testing in other laboratories
- repeating tests of samples
- conducting tests using different independent methods
- comparison with other parameters
- direct observation
- clinical correlation studies
- participation for multiple proficiency testing

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

ATLAS Project  
ISO 15189 Accreditation  
Support Course

## 6 Post-examination

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

## General

ATLAS Project  
ISO 15189 Accreditation  
Support Course

### Result reporting

- review of the results
- reporting of the results
  - accurately, clearly, and unambiguously
  - using internationally accepted vocabulary and nomenclature and appropriate language for the intended recipients
- release of the results to only the persons authorized

### Post-examination handling of the samples

- handling procedure
- retention period
- disposal

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

## Report Content-1

ATLAS Project  
ISO 15189 Accreditation  
Support Course

### Common requirements

- examinations performed
- name of the laboratory issuing the report
- location of performance of the laboratory examinations
- unique patient identification
- name or other unique identifier of the user and contact details
- date of primary sample collection and sample receipt
- type of primary sample and any specific information necessary to describe the sample
- measurement or examination procedure, where relevant
- reference intervals, clinical decision limits
- interpretation of results, where appropriate
- identification of the examinations undertaken as part of a research or development program
- date of the report and time of release
- identification of any results that need to be considered as preliminary

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

## Report Content-2

**ATLAS Project**  
ISO 15189 Accreditation  
Support Course

### Specific requirements for reports

- comments on sample quality and suitability
- indications of critical results
- interpretive comments
- interpretation of results

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

## Report Content; Molecular Pathology

**ATLAS Project**  
ISO 15189 Accreditation  
Support Course

### Reporting of secondary findings

- policy for reporting
  - not to report
  - ethical considerations

### Information for interpretation

#### Additional information

- need for genetic counseling
- potential impact on family
- necessary additional testing

Secondary use of any contents of this site for commercial purposes is prohibited.

ICRweb: [https://www.icrweb.jp/icr\\_index.php?lang=en](https://www.icrweb.jp/icr_index.php?lang=en)

## Amendments to Results and Reports

**ATLAS Project**  
ISO 15189 Accreditation  
Support Course

### **Amended or revised results procedure shall be included**

- clearly identified any change of information
- recognized by user the amendment or revision
- the date and time of the revision
- the name of the person responsible
- the original report entries remain in the record when revisions are made
